CLAUDE CERTIFIED ARCHITECT — FOUNDATIONS

Claude Certified Architect – Foundations: Exam Study Guide

A community-style study guide built from the 37 official exam objectives in the *Claude Certified Architect – Foundations* score report. Objectives are grouped into 5 topic sections, each with 15+ certification-style multiple-choice practice questions, answers, and explanations.

Sections

#	Section	Objectives covered	Questions
1	Agentic Loops, Parallel Execution & Context Management	1, 2, 20, 21	16
2	Multi-Agent Orchestration & Subagent Design	3, 4, 5, 6, 7, 8, 9, 10, 18, 19, 33	20
3	Claude Code CLI, Configuration & Automated Workflows	11, 12, 13, 14, 15, 16, 17, 32	18
4	Structured Outputs, Extraction & Automated Review Design	22, 23, 24, 25, 26, 27, 28, 29, 30, 31	20
5	Model Context Protocol (MCP) Integration & Tool Design	34, 35, 36, 37 (+ broader MCP architecture)	20

Total: 94 practice questions across all 37 objectives.

Per-objective pages

For deeper, focused practice, every individual objective also has its own dedicated page with 15 questions: see the **Objectives Index** (37 pages, 555 questions).

How to use this guide

- Each page is self-contained: question, four answer options (A–D), the correct answer, and a short explanation of why it's correct (and why the others aren't).
- Work through a section, then revisit only the questions you got wrong.
- Objective numbering and source text come from the original exam score report (`Score Report` sheet, objective table).
